## Why Haakon?

We believe in creating an environment that allows our employees to thrive and giving them the tools and training to excel.

You would get to be part of one of a great team where we value every members strengths. With us you would find camaraderie, mentors, collaborators, and a generally supportive team.

Be part of a leading innovator in the HVAC industry, continually striving to make life better for our clients and our team. We work collaboratively with all staff members to find solutions to everyones challenges.

Your contributions to the organization will be valued beyond your ability to fix HVAC equipment. We believe that the brain trust of the organization is our most powerful asset. We value everyones opinion and strive to continually improve.

We believe in promoting from within and understand that opportunity for career development and advancement is key to longterm job satisfaction. We provide the coaching and training for you to continually take the next steps that are right for you.
